Sponsored by	Advanced Communication Media Co., Ltd.
Supported	Imaging Association Japan (IAJ) Japan Industrial Imaging Association (JIIA)

2. Exhibit Booth Specifications

The size of 1 space of "Table-top Booth" is below.

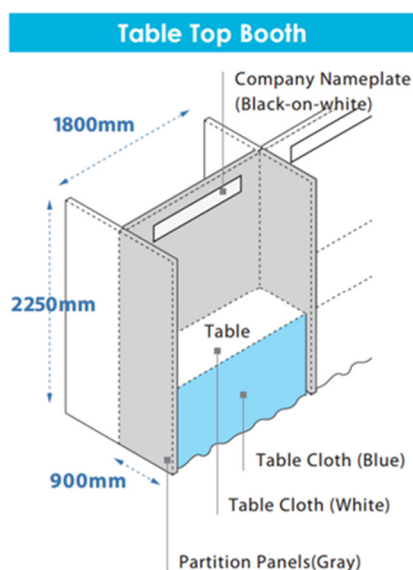

You will find the company nameplate with drawing pins, please hung it inside your booth. It might be easy to bend, please fasten the left and right ends of the company nameplate.

*The side panels facing the aisle are removable.

*If the side panels are not necessary, please write the request on a layout plan of "Application for the Electrical Works", and submit prior to the exhibition.

*It is not able to use nails and screws on the side-back panel as it covers wooden blocks with plywood, use drawing pins or adhesive tapes instead. If a pin or tape cannot fix the material, hang it by chains from top of the panel. Panel thickness is 35 mm – 38 mm. Maximum load 20 kg.

*There is a space under the table which can be used for storage.

Guidelines for Exhibitors
